

PRODUCT GUIDE

QUALITY GOES BEYOND CONSISTENTLY GOOD PRODUCTS.
TRUE QUALITY PERMEATES AN ORGANIZATION. IT BREEDS EXCELLENCE.

Welcome. Innovative Healthcare Corporation is committed to taking care of you. Our people and our products are the best in the world, and we prove it to our customers day in and day out, month after month, and year after year.

We have one of the highest customer retention rates in our industry. Why? Because we genuinely believe in, and practice our **One Corporate Policy**:

“DO WHAT THE CUSTOMER WANTS DONE”

We’ve learned over the years that the partnerships we bond are far more valuable than the dollar value of the invoices. In fact, our customers return value to us every day by recommending us to their associates. A fact which naturally makes us very proud.

We don’t have a “Customer Care” Department, because Customer Care isn’t a department. Customer Care is what comes naturally from a company whose employees are committed to building successful partnerships.

AT IHC, WE’RE COMMITTED TO THE KIND OF SERVICE THAT
CREATES SUCCESSFUL, LONG-TERM PARTNERSHIPS.

We’ll provide the best we have to offer in every contact you have with us. Our people are professional and knowledgeable. Our glove line is one of the broadest and most comprehensive in the industry. All of our disposable products are top quality and priced to be competitive.

We’re here to help you find the most appropriate product for the job.

ISO 13485:2016 Certified

PRODUCT SOLUTIONS YOU TRUST

IHC has been a leading supplier of high quality gloves to the medical, dental, and industrial markets in North America since 1991. We've developed a wide range of products designed to maximize user performance, efficiency and safety.

Our products include some of the most trusted and widely distributed gloves and disposables in healthcare. Names like DermAssist®, NitriDerm®, ProDerm™, and Pulse®. Products that, through their consistent growth, continue to prove that quality does make a difference.

No matter what segment of the healthcare industry you serve, we have a glove product with characteristics well suited to its specific tasks or requirements. Acute care, primary care, ambulatory care, extended care, dentistry, laboratory, corrections, EMS and many others. Each has a unique need, and you'll find many of those product solutions on the pages that follow.

And while we're proud of our products, we're even more proud of the confidence our customers place in us every day. We've built our company around our customers and their needs. Nothing is more gratifying than the knowledge that we're exceeding their expectations.

NitriDerm® CS 16" Elbow Length

**Non-Sterile Nitrile Exam Gloves
Series 116**

All Sizes Packaged:
50 gloves/box, 10 boxes/case

✓ **Tested for use with
Chemotherapy Drugs**

NitriDerm® CS is designed for maximum protection when cleaning and decontaminating reusable surgical instrumentation and equipment. Textured for maximum grip even when wet, with cuffs a full 16" in length for maximum coverage. Tested with a wide range of chemotherapy drugs, including Carmustine and Thiotepa.

SIZES	ORDER NO
S (6 ½ - 7)	116100

Elongation Before Aging (%)	avg. 694
Elongation After Aging (%)	avg. 620

Color: Steel Blue

NitriDerm® COATS®

**Non-Sterile Nitrile Exam Gloves
Series 125**

All Sizes Packaged:
200 gloves/box, 10 boxes/case

✓ **Tested for use with
Chemotherapy Drugs**

✓ **CONTAINS COLLOIDAL OATMEAL USP, A SKIN PROTECTANT DRUG**

COATS® barrier technology is a powder-free, all-natural physical barrier between the glove and the wearer's skin, utilizing the therapeutic properties of colloidal oatmeal. The colloidal oatmeal barrier shields the skin's surface, and creates a moisturizing and pH balancing environment that helps dry, damaged skin to repair itself. All chemotherapy drug permeation data is printed on the box.

Pulse® PURE™**Non-Sterile Nitrile Exam Gloves
Series 178**

All Sizes Packaged:
200 gloves/box, 10 boxes/case

✓ **Tested for use with
Chemotherapy Drugs**

Made without the use of sulfur based chemical accelerators. Our new Pulse® PURE™ eliminates the risk of both Type I (latex) and Type IV (chemical) allergic reactions. Unlike typical accelerator free nitrile gloves, Pulse® PURE™ is as soft and comfortable as our regular Pulse® nitrile. All chemotherapy drug permeation data is printed on the box.
